Subject: RE: Conveying EPA Region 10 IRIS Priorities

It's my understanding that each region's requests need to be sent to an NPM and they will compile and send on to ORD. A call was held yesterday with RA's outlining this. More will be discussed tomorrow during the DAA/DRA call

Hope that helps, and thanks

Subject: Conveying EPA Region 10 IRIS Priorities

Hi Jennifer,

Michelle Pirzadeh, our deputy regional administrator, forwarded your request for prioritization of Region 10's IRIS needs to me. I am attempting to coordinate Region 10's response.

Our intent is to prepare forms for each chemical, providing an aggregation of R10 IRIS needs across offices on each form.

With regards to submitting R10's needs, I was hoping that you might clarify the appropriate party you wish to return our information to you. Is it your expectation that the submittal package will come from either the Region 10 Regional or Deputy Regional Administrator? If this is the case, technical staff may need to engage in some briefing of regional upper management.

Regards,

Lon Kissinger
